## Black Magic Processing

### Why should I process my barrels?

Black Magic processing will help improve performance, increase continued accuracy and extend barrel life.

### What can be sent in?

You can send only the barrel and the receiver. No bolt or trigger mechanism may be sent.

### What is the turnaround time?

Bonal offers a industry unique **48 HOUR TURNAROUND TIME or by appointment!!!**

### Will the processing effect my finish?

No, the Black Magic process uses mild vibrations, so there will be no damage to the finish.

### What is the cost?

Black Magic processing is \$50.00 a barrel. (Ask about quantity discounts)

### Can I buy my own Black Magic System?

Yes, they come in three sizes, 12" x 18", 15" x 30", and 18" x 36". **Call 800-Metal-29 for details.**
